

FAA Safety Team and Philadelphia FSDO presents:

Mid-Air Collision Avoidance

The airspace throughout central New Jersey (NJ) can be busy as several General Aviation airports combine with military bases at Lakehurst and McGuire AFB encompass large areas throughout the state. Major Kellie E. Kavanagh, Chief of Safety, and KC-10 pilot, along with a controller from RAPCON and a C-17 pilot, will be discussing a host of safety issues regarding seeing and avoiding, airspace parameters and the ease of doing something that a lot of pilots avoid: That being communication with McGuire and requesting flight following and advisories. This presentation is a must for any pilot operating in this congested airspace and a worth while investment in your knowledge as a pilot.

Directions: From north or south. Garden St. Parkway exit 77. Pinewald-Keswick Rd/Rt 530. You will see signs for Robert J. Miller Airpark on left (this is now Ocean County Airport). approx. 2000 feet on left, first driveway is the OEM building. Aircraft parking available on ramp area..

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
